EDUCATION

Brigham Young University - Idaho, Rexburg, ID
Bachelor of Science, Finance | GPA: 4.0 | Expected Apr 2028
Minors: Business Analytics, AI Business Systems
Full-Tuition Academic Scholarship (Merit-Based)
Officer, AI in Business Society

EXPERIENCE

Independent AI Consultant & Project Manager | Self-Employed
December 2025-Present

- Build custom websites and AI-powered web applications using Claude Code, React, GitHub, and Vercel.
- Building a quote-request website for a local window cleaning business that sends every request to the owner.
- Find workflow gaps in a business and build software and automations to fix them, from scoping to launch.

AI Project Consultant - Brigham Young University - Idaho
December 2025-May 2026

- Built 30+ AI simulations and web apps with Claude Code, Base44, and Vercel, used by 70+ students.
- Integrated course tools with Canvas through SCORM 2004 for score reporting and completion tracking.
- Guest lectured on AI-powered business tools and mentored students.

Financial Representative Intern - Northwestern Mutual | Las Vegas, NV
May 2026-September 2026

- Licensed in Life & Health in several states and trained in client discovery and financial planning.
- Built a prospect pipeline through outreach to individuals, professionals, and business owners.
- Partnered with senior advisors to identify client goals, risk exposure, and planning needs.

Senior Missionary Leadership Coordinator - The Church of Jesus Christ of Latter-day Saints
May 2023-May 2025

- Coordinated operations across 12 regions and ~200 missionaries, working directly with 48 regional leaders.
- Led bi-weekly leadership trainings, weekly initiatives, and monthly planning sessions with senior leadership.

Computer & IT Specialist - University of Nebraska Omaha | Omaha, NE
May 2020-May 2023

- Automated IT tasks with Bash and supported 50+ computers, servers, and virtual machines.

PROJECTS

- **SalesEQ Coach (saleseqcoach.com):** AI sales role-play app (React, Vercel) that replaced a course's reading quizzes.
- **Canvas Kit:** Chrome extension adding themes, grade display, and layout controls to Canvas.
- **Multi-Inbox AI Assistant:** Deployed an MCP connector on Google Cloud so Claude works across several Gmail inboxes.
